

DATASHEET

What's new in Sage 300 2021.0

*Get Paid Faster with
Payments Acceptance*

Sage 300 2021.0 makes it easy for you to get paid faster with the new Payments Acceptance module. The latest version 2021.0 also includes other enhancements like sales withholding tax, longer cheque fields and changing font size on web UI.

Payments Acceptance Module - Coming soon

Sage 300 users can now add a Pay Now link when they send their invoices to their customers. Payment can be made online via credit or debit cards when they click on the payment link in the invoice.

We've partnered Stripe and PayPal to bring the invoice payment service to Sage 300.

Sales Withholding Tax

Businesses can now withhold taxes during a sale to customers. This feature allows for the business to withhold some or all of the tax amount so that it can be remitted to the local tax authorities as required.

Increase cheque field length

We have increased the number of characters in the cheque field from 9 to 15.

Change font size in web UI

We continue to enhance the user experience of the web UI with the ability to change the font size displayed.
